The click-on Professional
SUIT

The Click-on Professional Technology Suits have 11 pairs of electrodes out of which 8 pairs you will find inside the suit. We also have two pairs of bands, the calf bands one of which are equipped with 1 magnetic connection each, while the arm bands have 2 magnetic studs each.

The unisex EMS suit is made of ultra-lightweight yet durable fabric that can be exposed to extreme studio use. The click-on magnetic studs make the placement of the electrodes easy and assure stable connection.

14 mm | **250 g (8,8 oz)**

The smallest and lightest EMS control unit.

Justfit control unit:
THE BRAIN

The brain of the Justfit EMS system is the control unit. It is small, handy and lightweight, perfectly suiting the mobile trainer concept. The role of the brain is to create a network which enables the trainer to conduct training sessions anywhere they wish without any heavy equipment. Simply connect to the brain with the tablet software and your system is ready to use. Approximately 10-15 training sessions can be conducted with one charge.
